

HRO

Cleaner water for your whole family. Reduce unpleasant tastes and smells from chlorine/chloramines used by your city during the water treatment process. Reduces fluoride, lead, nitrates/nitrites and more.

- Keep your flow rate going— our 0.8 gallons per minute flow rate delivers cleaner, healthier water for all of your drinking and cooking needs.
- Reduce more than 95% of fluoride for cleaner, healthier water.
- Includes first set of filters, RO tank, faucet, and all parts required for installation.
- Replace Stage 1 and 3 every six months. Replace Stage 2 once a year.

System Specs:

Dimensions: 4.5" x 12.5"

Warranty: 2-Year Limited Warranty

HOW IT WORKS — 3-STAGE REVERSE OSMOSIS

- 1 Stage 1**
Carbon Block — reduces chlorine/chloramines taste and odor before passing through the reverse osmosis membrane.
- 2 Stage 2**
Reverse Osmosis Membrane — targets and reduces 13 contaminants, including fluoride, nitrates, nitrites, lead, radium and arsenic.
- 3 Stage 3**
Carbon Block — one final filtration pass to reduce any additional objectionable tastes and odors.
